

Background

Kron Technologies is a fun, ambitious, and quickly growing startup that's disrupting the world of high-speed cameras. We're looking for talented individuals to join us having a blast while designing and manufacturing world-leading products. Our employees enjoy flexibility, freedom, and a fun, supportive environment. We're located just north of Burnaby Lake in the Government Road neighborhood, a short walk from Production Way/University Skytrain station, and a 5-minute drive from Highway 1.

About the position

As a Mechanical/CNC Technologist at Kron Technologies, you will be assigned the task of designing, prototyping, and manufacturing parts and accessories for our products. You will be working closely with our research and development team, product development team, and our production team to complete tasks such as:

- Mechanical design of camera-related components with a focus on DFM for CNC machining
- CNC part programming in Fusion 360
- CNC machine setup and operation for prototype part runs
- Training and overseeing operators for in-house CNC production
- Building tooling, fixtures and jigs

Required qualifications

- Diploma or degree in a field related to mechanical design, engineering, or CNC machining
- 2 years experience in mechanical design/CAD
- 1-year experience in CNC part programming and machining
- Familiarity with manual machining on lathes
- Able to lift 10kg in and out of a CNC bed

Desired qualifications

- Experience in Fusion 360 and Solidworks
- Electronics enclosure design experience
- Extrusion and/or die casting design experience

Perks, Compensation and Benefits

As a full-time employee, you will be compensated with a salary based on experience and skills. You will receive full benefits that include flex hours, working from home on occasion, health benefits including medical, dental, optical, travel, and access to a health and/or lifestyle spending account. The use of the shop space is open to all employees for personal projects. We offer educational benefits for our employees that wish to enhance their careers. We often have company lunches and pot-lucks and other group activities. During COVID, our social events have gone on-line in the form of book clubs, game sessions, and video water cooler chats.

This position is available September 15th, 2020.

To apply, send your resume as well as a cover letter, a portfolio of personal projects, and a picture of your favorite cute animal. Failure to include all documents and additional information will result in a rejected application.
