

Background

Kron Technologies is an emerging technology company that has grown from its Kickstarter origins to develop innovative technology that has disrupted the world of high-speed video cameras. We're looking for more talented individuals to join us as we design, develop, and manufacture our world-class imaging products. Our diverse team enjoys flexibility, freedom, and a positive work/life balance.

We're located a short walk from the Production Way/University Skytrain station, and a 5-minute drive from the Highway 1, Gagliardi Way Exit.

About the position

This full-time position is an opportunity to work in a thriving technology company that is reshaping the world of high-speed cameras. You will be working to assemble, configure and test high-speed cameras that are distributed to customers around the globe.

Responsibilities

This role will be responsible for assembling precision electro-mechanical products (high-speed cameras).

Detailed responsibilities and tasks include:

- Build high-speed cameras!
- Prepare, process, clean, install, assemble, rework, verify, test, solder, and/or inspect electronic and mechanical components, hardware, sub assemblies and assemblies
- Operate shop equipment and tools where applicable
- Adhere to established environmental and safety procedures
- Use work instructions, drawings, methods, diagrams, workmanship standards or other specifications in accordance with established assembly procedures
- Perform product verification testing
- Monitor and record related documentation to meet quality requirements
- Maintain a clean and organized workspace
- Perform other duties as assigned

Qualifications

- Mechanical, Electrical, Computer or Mechatronics diploma or similar is an asset
- 2+ years of electronic/mechanical assembly experience
- Excellent attention to detail and patience working with components, parts and tools
- Fine manual dexterity and steady arm-hand coordination
- Willingness to learn and adapt to new working methods and procedures
- Proficient with computers, including spreadsheets
- Willingness to be cross-trained and to support other work centers/teams when needed
- Good written and oral communication skills

Perks, Compensation and Benefits

As a full-time employee, you'll receive a salary commensurate with your capabilities and experience.

We offer a comprehensive benefits package including extended health, dental, and travel medical insurance, Healthcare and Lifestyle Spending accounts, positive work/life balance, and a professional development allowance.

In addition, we have a mini-gym, electronics lab, and machine shop, which you're welcome to use in off-hours for personal projects.
